

Alaska[®]

ELK 1795

WORKBOOK

COLLECTION AW 2018–2019

Explore The Wild

The wild and unique wildlife of Alaska and its rich game stock was discovered as early as in the 1700s. Behind the product development of the Alaska Elk 1795® clothing collection there is a group of experienced hunters and clothing designers. They have teamed up with top-ranking professionals, such as the world's leading garment laboratories. This collaboration has resulted in a new generation clothing line for active hunters.

The Alaska Elk 1795® collection brings the comfort of hunting clothing to a whole new level and it meets the highest requirements of the active hunter. High quality product development, the best materials and excellent technical functionality ensure that the hunting trip is successful and pleasurable, regardless of the conditions – even in the Alaskan wilderness.

HIGH QUALITY TECHNOLOGIES FOR ACTIVE HUNTERS

COOLDRY TECHNOLOGY

Alaska CoolDry is a high-performance microfiber polyester fabric that transfers sweat from the body to the fabric surface, where it evaporates. As a result, CoolDry keeps the hunter cool, dry and comfortable.

THERMODRY TECHNOLOGY

Alaska ThermoDry is a brushed microfiber fleece that retains energy and prevents heat loss. It provides maximum insulation from cold with minimal weight and bulk. It is ideal for any cold weather hunting that requires insulation.

MERINO WOOL

Amazingly soft merino wool is naturally breathable and warm material. It feels nice and cool when needed and it also dries very quickly.

Hi-Dry™ treatment makes the outer fabric water and dirt repellent. The material also dries quickly and maintains its exceptional lightness.

100% waterproof, windproof and breathable membrane that has been tested in several laboratories and in extreme wildlife conditions.

New, ultralight 3-layer is a technical and durable construction in which the outer fabric, Rain-Stop® membrane and breathable inner lining have been laminated together.

RAIN-STOP® OUTERWEAR MEMBRANE TECHNOLOGY

- WATERPROOF
- WINDPROOF
- HIGHLY BREATHABLE

For our products we have chosen a membrane of the highest possible quality utilizing Rain-Stop® technology. The excellent waterproofness and breathability of the Rain-Stop® membrane for outerwear and Rain-Stop® X-PROOF for footwear have been proven in several different laboratory tests.

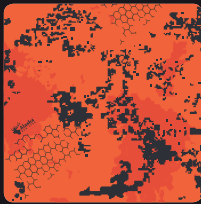

CAMO PATTERNS

ALASKA ELK 1795®

BLINDTECH INVISIBLE™ CAMO

BlindTech Invisible™ is a new digital camo pattern, which is exceptionally based on misleading the eyesight of the prey, whereas traditional patterns are based on the eyesight of humans. Studies show that the optimized colour combinations of the camo pattern combined with a breaking structure provides better camouflage from the prey. BlindTech Invisible™ camo is suitable for hunting in various types of terrain.

BLINDTECH BLAZE™ CAMO

BlindTech Blaze™ is a new digital safety camo pattern, which is exceptionally based on misleading the eyesight of the prey, whereas traditional patterns are based on the eyesight of humans. The breaking structure of the camo pattern provides proven low visibility to the prey, while the safety colour improves visibility to other hunters.

BLINDTECH™ SNOW CAMO

The BlindTech™ Snow camo pattern is designed to match the foliage and colors of snowy Nordic nature in winter. It is based on misleading the eyesight of the prey, whereas traditional patterns are based on the eyesight of humans. BlindTech™ Snow is effective in all hunting situations in snowy conditions.

BLAZE 3D™ SAFETY CAMO

The Blaze 3D™ safety camo pattern keeps you safe and highly visible to other hunters while making you invisible to the prey. The carefully chosen HD photographed elements guarantee better optical illusion that blends the hunter into the environment. The Blaze 3D™ safety camo pattern is for all purpose making it effective in a variety of hunting situations and environments.

BLIND MAX HD™ CAMO

The Blind Max HD™ camo pattern is designed to match the foliage and colors of Nordic nature. Even more natural colors and carefully chosen HD photographed elements guarantee better optical illusion that blends the hunter into the environment. The Blind Max HD™ pattern is for all purpose making it effective in a variety of hunting situations and environments.

BLINDTECH™ SAFETY MIX AND BLIND MAX HD™ SAFETY MIX

The combination of green and orange camo patterns makes you both invisible to the prey and provides you and other hunters safety. Combinations come with both - digital BlindTech camo and traditional Blind Max camo.

VAPOR HUNTING SUITS

RAIN-STOP **YKK**

VAPOR HUNTING SUIT

Forest Green

We combined unbelievable lightness, flexibility and exceptional breathability. Rain-Stop® 3-layer material can be found from parts that are most exposed to rain and wind. You need to wear it to believe its amazing comfort. This slim fit suit is an excellent choice for an active hunter for the warmer hunting weathers.

Sizes: XXS-4XL

RAIN-STOP **YKK**

VAPOR HUNTING SUIT

BlindTech Invisible

This Vapor hunting suit uses BlindTech Invisible camo for making the hunter disappear in the eyes of the prey. Vapor is exceptionally light, flexible and breathable. Carefully positioned Rain-Stop® 3-layer material provides safety from rain and wind. This slim fit suit is an excellent choice for outdoor activities and hunting.

Sizes: XXS-4XL

A man with a beard and a dark cap is shown in a full green hunting suit, including a jacket and pants. He is holding a long-barreled rifle with a wooden stock. He stands on a hillside overlooking a vast forest landscape with a lake in the distance. The scene is lit with warm, golden light, suggesting late afternoon or early morning.

EXTREME LITE HUNTING SUITS

RAIN-STOP **YKK**

EXTREME LITE HUNTING SUIT

Forest Brown

The Extreme Lite hunting suit is the most popular suit in the Alaska Elk 1795® collection. Its exceptional lightness (even 35% lighter than traditional hunting suits) and quick drying material guarantee excellent performance in demanding hunting situations. 100% waterproof and highly breathable Rain-Stop® membrane wicks the moisture away keeping you dry. The Extreme Lite suit is the most multifunctional Alaska suit for an active hunter.

Material: 100% polyester.

Sizes: **XXS-4XL**

RAIN-STOP YKK

EXTREME LITE CAMO HUNTING SUIT

Blind Max HD™ / Brown

Extreme Lite hunting suit with BlindMax HD™ camo is a versatile suit providing optimal camouflage in various hunting situations and terrain types. The excellent lightness (up to 35% lighter), extensive properties - such as several spacious pocket structures and well-fitting design - provide the best comfort.

Material: 100% polyester.

Sizes: XXS-4XL

RAIN-STOP YKK

EXTREME LITE CAMO HUNTING SUIT

BlindMax HD Safety Mix

Extreme Lite Camo hunting suit with BlindMax HD Safety Mix™ is a versatile camo suit providing optimal camouflage as well as improved safety. The excellent lightness (up to 35% lighter), extensive properties - such as several spacious pocket structures and well-fitting design - provide the best comfort.

Material: 100% polyester.

Sizes: XXS-4XL

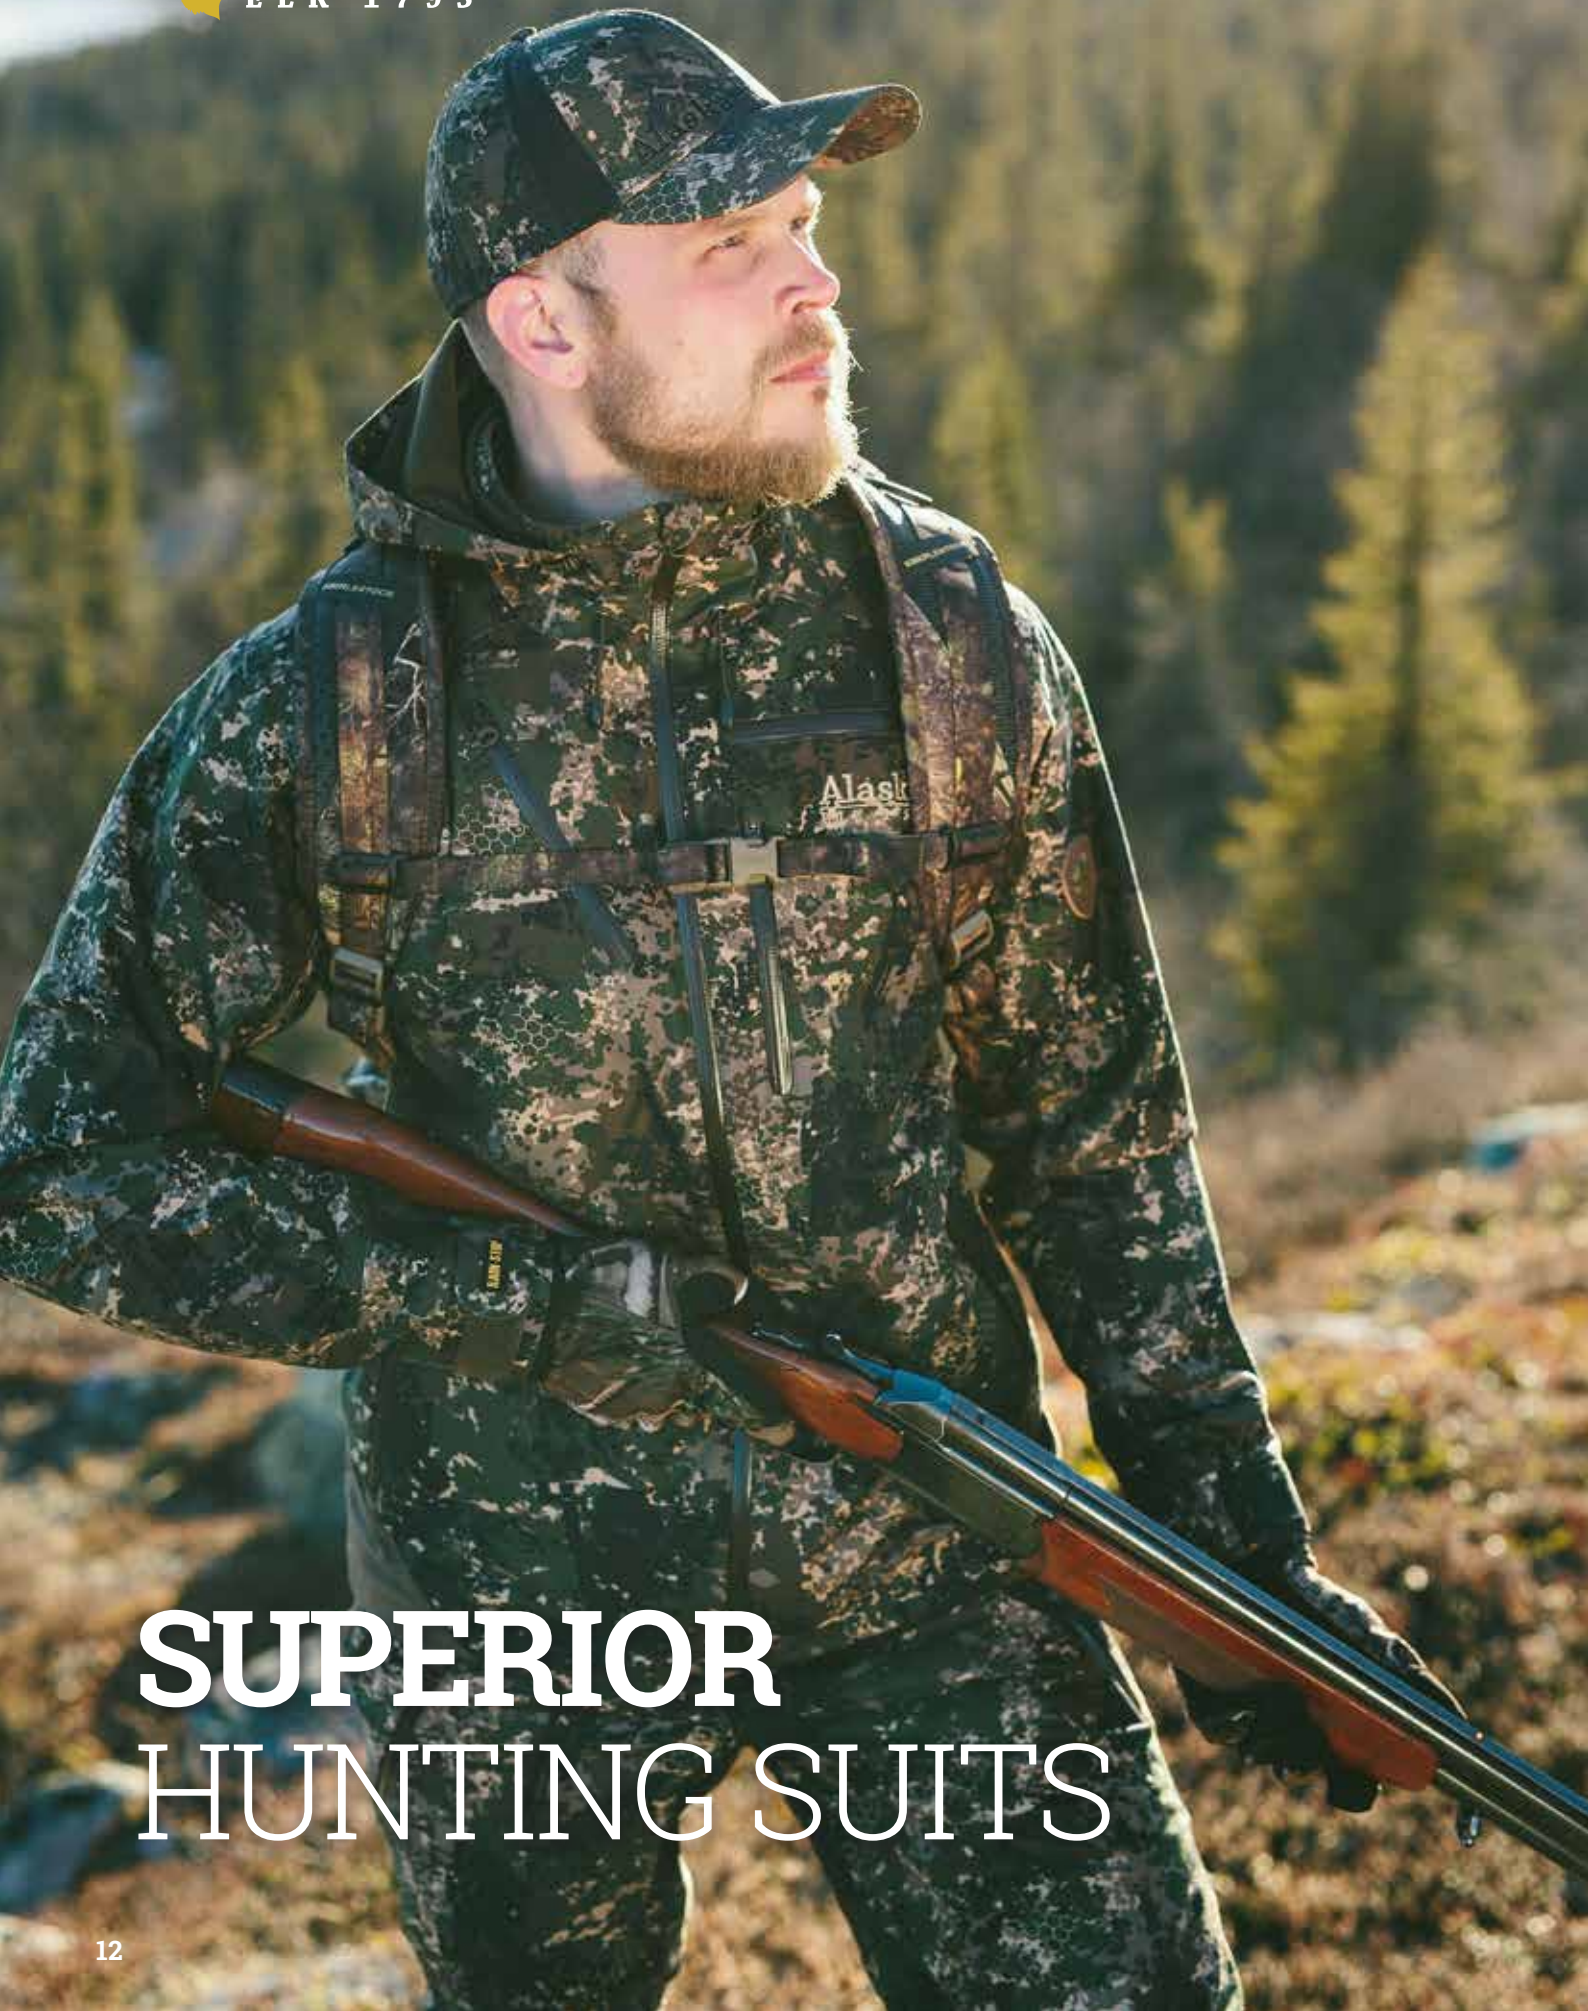

RAIN-STOP **YKK**

EXTREME LITE CAMO HUNTING SUIT

Blaze 3D™

A super popular hunting suit for big game hunters. The suit keeps you safe and visible to other hunters while the effective camo pattern makes you invisible to the prey. Rain-Stop® membrane keeps you safe from rain and wind. This suit has a variety of qualities that make your hunting trip all the more comfortable.

Sizes: XXS-4XL

SUPERIOR HUNTING SUITS

RAIN-STOP

YKK

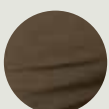

SUPERIOR CAMO HUNTING SUIT

BlindTech Invisible™

This Superior hunting suit is equipped with a new digital camo pattern, which is exceptionally based on misleading the eyesight of the prey, whereas traditional patterns are based on the eyesight of humans. The excellent lightness, extensive properties and well-fitting design provide the best performance and comfort.

Material: 100% polyester.

Sizes: XXS-4XL

Also available in
Moss brown

RAIN-STOP

YKK

SUPERIOR HUNTING SUIT

BlindTech Blaze™

This new suit benefits from its mix of BlindTech Invisible and BlindTech Blaze camouflages for additional safety. Unbelievable lightness, excellent breathability and 100% protection from wind and rain - thanks to its Rain-Stop® membrane and sealed seams. A brilliant suit for big game hunters.

Material: 100% polyester.

Sizes: XXS-4XL

Ni-Dry™

SLIM FIT

SUPERIOR HUNTING SUIT

BlindTech Invisible™ Safety Mix

This Superior camo hunting suit is trimmed with safety camo parts that increase the safety to you and your fellow hunters. The suit is extremely light, it has extensive properties and well-fitting design. It provides you the best performance and comfort. Rain-Stop® membrane and sealed seams keep you safe from wind and rain.

Material: 100% polyester.

Sizes: XXS-4XL

RAIN-STOP

YKK

SUPERIOR HUNTING SUIT

BlindTech Snow™

This wintry hunting suit is equipped with a digital snow camo pattern. Its breaking structure provides proven low visibility to the prey. The excellent lightness, extensive properties and well-fitting design provide the best performance and comfort.

Material: 100% polyester.

Sizes: XXS-4XL

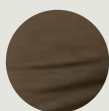

**TUNDRA
PADDED
HUNTING SUIT**

BlindMax HD™ / Blaze 3D™

Tundra padded hunting suit is an exceptional choice for winter hunting. BlindMax HD camo provides invisibility and Blaze 3D provides safety. Waterproof and windproof Rain-Stop membrane gives this suit the finishing touch. The long jacket keeps you warm with the hi-rise back in the pants. Material: 100% polyester.

Sizes: XXS-4XL

Also available in Forest brown

**FOREST CAMO
HUNTING SUIT**

M05 Camo

Forest camo hunting suit is a great choice for warmer weathers. This suit has no membrane, so it is very comfortable to wear even when the temperatures rise. The camo pattern has been applied for the Nordic nature. The camo pattern M05 was originally used by the Finnish Defence Forces both in uniforms and in military gear.

Material: 50% cotton, 50% polyester

Sizes: XXS-4XL

WOMEN & KIDS HUNTING SUITS

RAIN-STOP **YKK**

EXTREME LITE LADY HUNTING SUIT

Forest Brown
